

# 4<sup>th</sup> Lean IT Summit

16 & 17 October, 2014 - Paris, France

Discover how to build excellent software products, deliver faster and manage the transformation

- Learn by doing: master classes and hands-on workshops
- Hear and share Lean IT success stories
- Meet international Lean and Agile experts

**Nouveauté !**

**Les sessions seront traduites en Français**

# « What's the point of hiring smart people if you don't empower them to fix what's broken? »

This quote is taken from «Creativity Inc.» Pixar Cofounder Ed Catmull's book. Ed Catmull has applied the Lean principles since day one at Pixar and he has built one of the most profitable technology companies where developing creative workers is the key to success.

At the Lean IT Summit on 16-17 October 2014, you will meet the leaders who are applying similar strategies and shaping the future of information technology. You will learn to:

- ➔ **Bring your organization into the Digital Age**, walk the steps of Pixar, Google, Amazon or Spotify, and enter the Big League
- ➔ **Provide your creative workers with an environment that enables agility, intensive collaboration and innovation**
- ➔ **Go fast!** Discover how major companies from the media, banking, services and manufacturing industries use lean techniques to satisfy their customers and beat the competition.

## Guests of honor

Daniel T. Jones is one of the founders of the Lean movement. He coauthored with James P. Womack the influential and popular management books "The Machine that Changed the World", "Lean Thinking: Banish Waste and Create Wealth in Your Organization," and several other books.

[@DanielJonesLean](#)

Pierre has worked with Toyota since 2005. He has held various IT Management positions, overseeing the creation of one pan-European IT organisation covering Research and Development, Manufacturing and Sales in 56 countries, as well as coordinating the European Telematics activities. He is now VP & CIO of Toyota Motor Europe.

[@PierreMasai](#)

Almaviva is Italy's number one ICT provider. Nunzio Cali works with Almaviva S.p.A. as Deputy General Manager for Operations-Infrastructure and Application Services Division.

Fred is responsible for leading the Technology organization in its support of Nike's growth strategies and ensuring flawless execution of the daily "Run the business" activities.

Carlos works with businesses of all sizes to help them understand the technical aspects of Amazon Web Services and move their IT into the cloud. He is Chief Technology Evangelist for EMEA.

[@caarico](#)

Jeff created the first Scrum team in 1993 and worked with Ken Schwaber to formalize Scrum at OOPSLA'95. Together, they extended and enhanced Scrum at many software companies, helped write the Agile Manifesto in 2001, and authored the «Scrum Guide».

[@jeffsutherland](#)

Mary is the author of several books about Lean and Agile among which «Lean Software Development» and more recently «The Lean Mindset».

[@mpoppendieck](#)

Jeff is a designer & agile practitioner. He is a leading voice on the topics of Agile UX & Lean UX. He is the author of the O'Reilly book: «Lean UX: Applying lean principles to improve user experience».

[@jboogie](#)

# Pre-summit Master Classes - 15 October, 2014

## Join one of the 3 optional master classes

The price includes training + lunch break.

Location: Espace Diderot, 10 rue Traversière 75012 Paris.

Timing: 9:30 am to 5:30 pm

Master class  
700 euros

### Lean coaching in an IT environment with Mike Orzen

**Benefits:** In order to effectively introduce and sustain new thinking and behaviors that support Lean, effective coaching is essential. In an IT setting, coaching becomes even more of a challenge due to the reactive nature of the job, the complexity of the work, and uniqueness of skills sets. If you are wondering how to develop yourself and others to be an effective coach, this workshop is for you!

**Program:** Mike Orzen, Lean IT coach and 24-year practitioner of Lean, will lead an interactive hands-on workshop that will enable you to:

Understand and apply the core skills of effective coaching with IT professionals

Learn how to build, demonstrate, and inspire Lean thinking and Lean behavior

Practice developing people in Lean behaviors and practices

Apply Lean Thinking to enable Respect for People through the enterprise

Practice coaching the PDCA-based problem solving

Challenge yourself to learn by doing!

**Master Class Format:** This class is based on actual client engagements and uses case studies, lecture, group break out exercises, and role-playing. The course alternates between theory, hands-on exercises, and discussions.

**Target audience:** Experienced Lean practitioners, as well as those just starting out with Lean IT, will gain useful insights and new coaching skills they can apply immediately. Lean champions, project managers, program directors, team leaders, and team members.

**Trainer:** Mike Orzen  @MikeOrzen

### Lean leadership in IT, a hands-on master class with Steve Bell

What are the essential skills of a Lean IT leader? What are the key concepts and practices that will help you to develop your own Lean Leadership and practice skills, and that of your colleagues within the IT organization and across the enterprise?

**Benefits:** In this full day workshop, Lean IT pioneer Steve Bell will lead an interactive, hands-on learning experience that will help you to develop and expand your internal capabilities to improve Lean IT practice and deliver strategic gains across the enterprise.

**Program:** You will learn: The essentials of Lean leadership, management, team and individual behaviors - in general and specific to the IT environment - to promote sustainable gains that contribute to enterprise strategic goals.

How to utilize enterprise value stream architecture to help define and prioritize IT work.

How to effectively integrate popular IT frameworks and practices (including Agile, Scrum, Kanban, ITIL and COBIT) into a holistic Lean IT approach to realize operational excellence and drive rapid innovation.

How to coach teams to improve their ability to identify and utilize key performance metrics tied to strategic goals.

**Target audience:** Experienced practitioners, as well as those new to Lean IT, will gain useful insights and learn new practices that they can start applying in their workplace immediately.

**Trainer:** Steve Bell

 @LeanITCoach

### Make your IT projects succeed with the Obeya with Sandrine Olivencia

The "Obeya" method is used to visually manage complex, transversal projects.

**Benefits:** With this session, you will be able to:  
- Build your own obeya from scratch to manage your team, projects and programs.  
- Learn to identify the good problems you need to attack to make a difference.  
- Practice the PDCA-based problem solving by involving the key stakeholders.

This class is based on a simulation: the trainees will have the opportunity to use and improve an obeya. The course alternates between theory, hands-on exercises and discussions.

**Program:**  
1- Introduction: What problems are commonly found in IT? What are the consequences for customers, team, the enterprise? What does Lean have to offer IT, how does Lean solve the problems of IT?

2- Visit the Obeya: Description of the components and their objectives. Presentation of the simulation used for the exercises.

3- Hands on exercises:  
- Discover the Voice of the customer  
- Define the target product  
- Manage performance  
- Keep project plan and budget under control  
- Solve problems with the teams

4- The next steps:  
- The Obeya in your context  
- The Obeya in a distributed environment  
- Where and how to start?  
- Where to find help?

**Target audience:** Project managers, program directors, team leaders, team members.

**Trainer:** Sandrine Olivencia

 @sandrineolivenc

# Meet the experts

## What can Lean contribute to the Digital Age: Beyond Lean Startups

What customer problems are you really solving? What kind of organisation do you want to create? How will you escape the rigidities as you grow?

**Daniel T. Jones**  
Founder of the Lean Enterprise Academy

@DanielJonesLean

## The quest of one-piece flow in IT, from customer need to operations (and from problem to resolution)

How can you apply «one-piece flow» in the world of Information Technology? What are the benefits for your clients? Pierre Masai will answer these questions, and explain why «one-piece flow» is an ideal that every IT team should aim for. Lean, Agile, Scrum, DevOps are all methods that are successfully used at Toyota to try and reach this ideal. Pierre will also walk us through problem solving in IT operations.

**Pierre Masai**  
VP Information Systems  
CIO Toyota Motor Europe

@PierreMasai

## Enabling Lean IT teams with AWS

It's important to experiment often and fail quickly. In order to accelerate innovation, you need to lower the cost of failure and increase the speed of innovation. How to leverage the powerful nature of on-demand cloud computing and data-driven decision making to evolve your product or service by releasing early, releasing often and iterating quickly based on customer feedback? Hear how AWS frames it.

**Carlos Condé**  
Chief Tech. Evangelist  
Amazon Web Services EMEA

@caarico

## Scrum: The art of doing twice the work in half the time

In this talk, Jeff will describe how Scrum derives from lean product development at Toyota and what was added to Lean to get software teams agile.

**Jeff Sutherland**  
Inventor of Scrum  
CEO of Scrum Inc.

@jeffsutherland

## The Aware Organization

We now have a pretty good idea of what Just-in-Time means in software development. With Continuous Delivery moving to the mainstream, rapid flow of value through the development process is becoming routine. However, as software systems get larger and more complex, we may lose sight of what Jidoka has to offer. This talk is about what Jidoka, or situational awareness, means for groups developing large software systems.

**Mary Poppendieck**  
Author of 'Lean Software Development'

@mpoppendieck

## Better product definition with Lean UX and Design Thinking

Requirements-driven product definition is a sure-fire way to get 100% of the wrong product launched. The assumptions that requirements are based on are usually not accurate enough to determine the exact solution those requirements dictate. Instead, teams should focus on creating a series of hypotheses that define potential solutions to their business problem and then work together to learn which of these hypotheses are keepers and which ideas to kill. Jeff will provide an overview of how to apply the ideas behind Lean UX and Design Thinking to project definition and planning.

**Jeff Gothelf**  
Designer  
Author of 'Lean UX'

@jboogie

## Summit wrap-up

Marie-Pia created the Lean IT Summit in 2011. As an early Lean IT practitioner, she has been doing Gemba walks with many CIOs over the past years. From that experience, she sees what Lean management brings to IT and how Lean helps IT align with the business. Her point of view, based on her day to day Lean IT practice on the field, brings much value to the community.

**Marie-Pia Ignace**  
Co-Founder and President  
of Institut Lean France

@MPIgnace

More details about the speakers and sessions at:

<http://www.lean-it-summit.com>

# Learn from the Lean IT case studies

*Nunzio Cali will share his lean journey*  
More details coming up

**Nunzio Cali**  
Deputy General Manager,  
Operations-Infrastructure  
and Application Services  
AlmavivA

*From visual management to strategic engagement, the evolvement of an Obeya*

Learn from the journey Nike Europe's Tech department went through since they started into the now, where the Obeya visualizes how Nike Tech aligns to Nike's strategy supported by programs, our portfolio, key metrics, and a structured review process with our GEO and Global business partners...

**Fred Mathijssen**  
European Technology  
Senior Director  
Nike

*How I became a Lean CIO*

Three years ago Sari Torkkola was a CIO with great people in her team who... were burning out due to constant fire-fighting and internal customers describing the service level as "IT sucks". She then realized that the traditional way of managing does not produce results for anybody. One day, she googled «Lean». 3 years later, she has turned into a leader who coaches everyday.

**Sari Torkkola**  
CIO  
Patria

*Making 14 million gas and electricity customers happier using Lean*

On the Dutch energy market, EDSN manages the data of approximately 14 million gas and electricity customers. Discover how their Lean program provided a major transformation between grid operators, commercial parties and shipping parties in redesigning their metering data processes and the following results: a reduction of handling time of incidents of 65%, improved client satisfaction by 13% and employee satisfaction by 16%.

**Arthur van Wylick**  
Director  
EDSN

*How I tripled the turnover of my web and mobile dev start up with Lean*

How does Lean management help the startups grow? According to Benoît, co-founder of mobile and web dev start up Theodo, the Lean practice is the perfect approach CEOs need to solve the issues their fast growing start ups are faced with. He will explain the benefits in terms of turnover growth, strategic alignment, team empowerment, ability to focus on the right issues and to solve them. He will also explain why Lean is complementary to Agile.

**Benoît Charles-Lavauzelle**  
Co-founder & CEO  
Theodo

*From trouble shooting to organizing improvements: a management journey*

This is the story of a manager who decided to focus on the customer needs and on the need for value, making sure the teams work on the right questions and not only on the speed of delivery.

**Jannes Smit**  
CIO Internet NL  
&  
**David Bogaerts**  
Lean IT Coach  
ING Bank

*Getting fast: maximizing learning on all aspects of new software product development projects. A case study based on le Monde.fr experiences.*

Why maximizing learning helps teams develop software faster? Ismaël Hery, head of software development at LeMonde.fr will share his recent successes.

**Ismaël Hery**  
Head of Software  
Development LeMonde.fr

@Ismael\_Hery

*Making knowledge work visible - Implementing Lean IT in Bombardier Aerospace, Belfast*

Since 2010 the IT department in Belfast has been applying Lean IT principles and tools to improve the value they deliver to their customers. Hear the story of their initiative including the application of Kanban and Oobeya to the processes and management approaches.

**Angela Crone**  
Change Partner  
&  
**Conor Fanning**  
Business Leader  
  
IT Department  
Bombardier

### Think It, Build It, Ship It, Tweak It - Spotify's approach to product development

This talk will provide a high-level summary of Spotify's approach to product development, our so called «Think It, Build It, Ship It, Tweak It» framework, described by Mary and Tom Poppendieck in their book «The Lean Mindset» as summarizing most of the lean principles of product development.

Joakim Sundén  
Agile Coach  
Spotify

 @joakimsunden

### Pulling the flow in an IT environment : what to expect ?

In this session, you will discover the amazing operational improvements an IT team obtained when it started pulling the flow.

Emmanuel Richard  
Lean IT Project Manager  
BNP Paribas

### « Training Within Software » using Dojo and Mob Programming

This is the true story of a software creation team who wanted to double its productivity. You will see how a PDCA-like approach led to implement the Dojo and Mob programming practices, what worked and what could be improved.

Agile teams who want to increase their skills and efficiency through a standardized way of sharing knowledge amongst team members will learn a lot.

Bernard Notarianni  
Agile Coach  
& Software creator  
Umolelo

 @notarianni

### Devtest: using Lean and Devops practices to bring QA and coders together

Here is a real story, not a fairy tale, to shine a hopeful light for those walking the Lean path in software organizations. A story of developers and testers growing together as problem-solvers, through the catalyzing application of some Lean principles, a few key ideas and shiny new tools from the Devops movement, to the wisdom of the gemba.

Laurent Bossavit

 @Morendil

### SAP and Lean MindSet: Short and Fast project with India

Working on a software development project with an offshore team in India, Christophe had to manage differently to succeed. How the Lean practices helped him build a team spirit and deliver on time and under budget.

Christophe Berbeyer  
Project Manager

## The workshops

### Pull System applied to IT workshop - A 2 hour hands-on workshop on 16 October with Sandrine Olivencia and Pierre Jannez

«Pull» systems consist of producing in response to actual customer demand, and are at the heart of the lean approach. Wouldn't it be great if we could deliver information technology exactly when the customer really needs it? Would it be great if you could regain customer's trust in IT, reduce your costs while delivering more value, all this in a respectful environment for your employees?

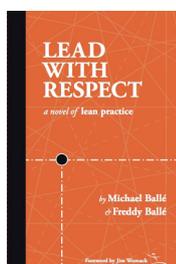

Whether you deliver support services, new infrastructure or new software, setting up «pull» systems within your operations and teams will help you get there. It's guaranteed! But you need a few ingredients to make it work.

In this hands-on workshop, Sandrine Olivencia and Pierre Jannez, Lean IT coaches with Operae Partners, will show you how to do this and the benefits you can generate for yourself, your customers and your employees.

### How to develop improvement routines, Kata Workshop - A 1h30 hour hands-on workshop on 17 October with Catherine Chabiron

A kata is a structured routine you practice regularly, so its pattern becomes a new habit. Remember how you learned to drive or to tie up your shoelaces ? Uncomfortable at first, you don't even think about it now. In this hands-on workshop, Catherine Chabiron, member of Institut Lean France will give you tips on how you can teach yourself and your team improvement kata routines, to gain efficiency in changing and uncertain environments. Based on scientific thinking and on an understanding of where we need to go, the improvement kata is a key pattern we all need to develop.

## Book signing with Michael Ballé!

In their new business novel Lead With Respect, authors Michael and Freddy Ballé reveal the true power of lean: developing people through a rigorous application of proven tools and methods. And, in the process, creating the only sustainable source of competitive advantage—a culture of continuous improvement.

Michael will be answering your questions and signing books at the end of the first summit day, on Thursday 16 October.

 @Thegembacoach

# Organisers

The Lean Global Network promotes lean thinking and provides leadership to help organizations with their lean transformations. The Members of the Lean Global Network include a growing number of non-profit organizations that are devoted to the promotion of lean thinking throughout the world. The members are completely independent, but interact on a regular basis.

[www.lean-global.org](http://www.lean-global.org)

Institut Lean France is the organizer of the Lean IT Summit. Its main role is to promote the principles and practices of Lean in companies and organizations in France.

[www.institut-lean-france.fr](http://www.institut-lean-france.fr)

## Registration online

[www.lean-it-summit.com](http://www.lean-it-summit.com)

Your registration fee covers entry to the Summit, any breakout sessions you choose to attend, welcome coffee, breaks, lunch and conference materials. You may choose to pay either by Credit Card or Bank Transfer. Institut Lean France will provide you with the invoice.

We also have group rates for groups of 3 and up: 20% discount.

**French participants: summit et masterclass sont éligibles au «DIF», Droit individuel à la Formation. Demandez-nous un devis ([contact@lean-it-summit.com](mailto:contact@lean-it-summit.com)) et nous établirons la convention de formation.**

Send your registration form by mail before 10 October 2014 (1 coupon per participant) to Institut Lean France - 34, rue de Bagneaux - 45140 St Jean de la Ruelle - France.

Make checks payable to Institut Lean France. For payment by bank transfer, please contact us by email : [contact@lean-it-summit.com](mailto:contact@lean-it-summit.com). **The conference is eligible for «Droit Individuel à la Formation».**

# Venue

The European Lean IT Summit will be held in a modern venue in the heart of Paris: Espaces Diderot. The place is conveniently located near the train station Gare de Lyon. Visitors will enjoy the socializing and entertainment opportunities the Bastille area has to offer, all within walking distance: the famous Opera Bastille, the Viaduc des Arts and the Seine river bank. The Espaces Diderot is very accessible via public transportation, taxi or rental car from the Airport Roissy Charles de Gaulle (CDG). There is adequate parking for drive-in day guests.

**Espaces Diderot**  
10, rue Traversière  
75012 PARIS  
Tél : + 33 1 40 26 40 00

## How to get there

### By car

The nearest parking structures are "Lyon Diderot" 198 rue de Bercy and "Effia" 2 rue Traversière.

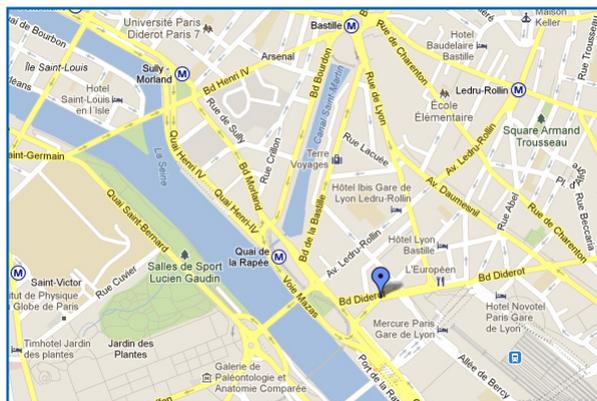

### From "Roissy Charles de Gaulle" Airport

There are several options:

From either one of the terminals, Cars Air France will take you to Gare de Lyon. Then, you may walk 2 minutes to Espaces Diderot.  
Other option: public transportation. Take RER B from Charles de Gaulle Airport, then change at Les Halles station for RER A. Get off at Gare de Lyon.

### From Gare du Nord Eurostar & Thalys station

In public transportation, take RER D straight to Gare de Lyon train station. Only 2 stations away!

Gare de Lyon  
RER A et D

### Méto :

Ligne 1 station Gare de Lyon (sortie 1 – Boulevard Diderot)

Ligne 14 station Gare de Lyon (Sortie 13 – Rue Van Gogh)

**Bus** : 20 / 54 / 57 / 61 / 63 / 65 / 87 / 91

**Cars Air France** – Orly et Roissy CDG

**Parkings**: Lyon-Diderot / 198 Rue de Bercy

## Recommended hotels

If you need a hotel in Paris, we have selected the following ones which offer special rates for the Lean IT Summit participants (rate subject to availability). You must contact the hotels directly to make the reservation.

**October is a very busy season in Paris, make your reservation early to take advantage of the special rates!**

**Mercure Gare de Lyon hotel\*\*\*\*** at 230 € per night. Send the attached [booking form](#) to the hotel to make your reservation.

**Holiday Inn hotel\*\*\*\*** at 205 € per night. Send an email to book your room : [resa@holidayinnparisbastille.com](mailto:resa@holidayinnparisbastille.com) mention Lean IT Summit / Institut Lean France

## Need more information?
