Lean IT Summit

13 MARCH 2017
PRE-SUMMIT MASTERCLASSES
14-15 MARCH 2017
6TH INTERNATIONAL LEAN IT SUMMIT

From Lean startup to Lean scale up

Agility, customer-driven leadership, streamlined processes, intense collaboration, distributed innovation. These assets seem imperative for 21st century IT teams, yet somehow out of reach for many executives as their workforce struggles in an overly complex and bureaucratic environment.

Join the Lean IT Summit to discover how Lean can be an inspiring model for IT Leaders while listening to :

- Worldwide experts such as Dan Jones, Jez Humble, Marie-Pia Ignace, Steve Bell and Mike Orzen to hear how they frame Lean IT.

- Startup entrepreneurs who build sustainable activities by continuously delivering high value to customers with a Lean framework.

- CIOs deploying Lean for a rapid digital transformation across the organization.

- Lean IT practitioners with personal stories on how they increased their product launch time by 10 and built systems that users love.

Espaces Diderot – 10 rue Traversière, 75012 Paris – France

13 AND 16 MARCH 2017
Masterclasses

3 pre-Summit Lean IT Masterclass on Monday 13 March

Masterclass: "Continuous Delivery" with Jez Humble
Author of "Continuous Delivery" and "The DevOps Handbook"

In this masterclass, **Jez Humble – author of "Continuous Delivery" and The DevOps Handbook"** will present an in-depth guide to the principles and practices behind continuous delivery and the DevOps movement, along with case studies from real companies and ideas to help you adopt continuous delivery and DevOps within your organization.

Who should take this course? Anyone involved in software delivery, from testers and developers to managers and systems administrators. All details about Jez Humble and the masterclass are available on the Summit website: http://www.lean-it-summit.com/optional-lean-it-masterclass

Masterclass: "Building Your Lean IT Roadmap" with Mike Orzen
Author of "The Lean IT Field Guide"

This one day workshop based on the book The Lean IT Field Guide will provide participants with an understanding of the foundational elements needed for a successful Lean transformation and practical experience identifying and executing the key activities of pre-launch and day zero activities. The workshop will focus on preparing you to implement a solid foundation of a sustainable Lean transformation, not just focus on terms, definitions, and theory without application!

Who should attend? Agile, DevOps and Lean IT practitioners of all levels + those responsible for leading real change in IT. All details are available on the Summit website http://www.lean-it-summit.com/optional-lean-it-masterclass.

Masterclass: "Leverage the Obeya Practice to Successfully Deliver IT Projects" with Edmond Nguyen and Pierre Jannez

After this masterclass, you will be able to create and develop a Lean "war room" using effective visual management to dramatically improve your project's performance, identify the obstacles to a successful delivery and improve communication and clarity among team members, practice data-driven decision-making to solve root cause issues and involve key stakeholders.

Who should attend? IT project managers, team leaders, IT team members, program directors.

All details are available on the Summit website: http://www.lean-it-summit.com/optional-lean-it-masterclass

1 post-Summit masterclass on Thursday 16 March

Masterclass: "Applying Lean to Leverage Big Data & Accelerate Your Digital Transformation" with Steve Bell and Karen Whitley Bell

Drawing from research, case studies, and practice, Steve and Karen will show IT and enterprise leaders and practitioners approaches to apply Lean principles and practices to utilize and improve Big Data value, and accelerate enterprise digital transformation, to better understand and engage customers, identify market trends and consumption patterns, and improve enterprise performance for greater value.

All details are available on the Summit website: http://www.lean-it-summit.com/optional-lean-it-masterclass

THE ORGANIZERS

The Lean Global Network promotes Lean thinking and provides leadership to help

organizations with their lean transformations. The Members of the Lean Global Network include a growing number of non-profit organizations that are devoted to the promotion of lean thinking throughout the world. The members are completely independent, but interact on a regular basis. www.leanglobal.org

Institut Lean France is the organizer of the Lean IT Summit. Its main role is to promote the

principles and practices of Lean in companies and organizations in France through conferences, trainings, masterclasses and book publishing. www.institut-lean-france.fr

THE VENUE

The Lean IT Summit will be held in a modern venue in the heart of Paris: Espaces Diderot. The place is conveniently located near the train station Gare de Lyon. Visitors will enjoy the socializing and entertainment opportunities the Bastille area has to offer, all within walking distance: the famous Opera Bastille, the Viaduc des Arts and the Seine river bank.

Espaces Diderot is very accessible via public transportation, taxi or rental car from the Airport Roissy Charles de Gaulle (CDG). There is adequate parking for drive-in day guests.

HOW TO GET THERE

The nearest parking lots are "Lyon Diderot" 198 rue de Bercy and "Effia" 2 rue Traversière.

From "Roissy Charles de Gaulle" Airport:
There are several options:
From either one of the terminals, Cars Air France will take you to Gare de Lyon. Then, you may walk 2 minutes to Espaces Diderot.
Other option: public transportation: Take RER B from Charles de Gaulle Airport, then change at Les Halles station for RER A. Get off at Gare de Lyon.
**From Gare du Nord Eurostar & Thalys station :**
In public transportation, take RER D straight to Gare de Lyon train station. Only 2 stations away!

Gare de Lyon is a major train station well connected with public transport:
Two RER lines: RER A and RER D stop at Gare de Lyon
Two metro lines: Line 1 station Gare de Lyon (exit #1 – Boulevard Diderot) and Line 14 station Gare de Lyon (exit #13 – Rue Van Gogh)
Bus lines: #20 / 54 / 57 / 61 / 63 / 65 / 87 / 91

PLAN YOUR STAY IN PARIS
